Draft agenda for the August 16, meeting

1. Discussion of Forest Service Route Designation Planning Process with Cheryl Probert, Humboldt / Toiyabe NF

Nationwide, the Forest Service is working through a process that will ultimately designate a transportation system on every national forest in the country. The goal of the process is to provide a stable, sustainable system of roads, trails and areas for people using motorized wheeled vehicles on national forest lands. Today forest visitors use networks of routes for a variety of recreational and other purposes, including access to remote trailheads or fishing spots, firewood gathering, sight-seeing and picnicking, or for the experience of exploring remote areas with off-highway vehicles such as motorcycles and quads or SUVs.

If you or others have an interest in this Route Designation Process, please attend and give your input.
